ENHANCING TEACHING SNOWSPORT THROUGH DIGITAL TOOLS – SKIEASY MOBAPP

Lifestyle as well as alpine skiing has changed dramatically along with the development of technologies; we are dealing with lower motor and functional skill of students, different motives to learn skiing and even different linguistic and cultural backgrounds. For this reason, it is important to adapt and improve procedures and teaching methods to such changes. As one of the outcomes of the SKI EASY project, **SKIEASY MOBAPP** (with dictionary – languages, manuals) will be presented, in 5-step SKIEASY teaching model as an application value for teachers and students on an indoor and outdoor practical work.
