

Winds of change in the Finnish Space Administration

Finnish Space Industry Days 5.4.2019

Maija Lönnqvist

Työ- ja elinkeinoministeriö
Arbets- och näringsministeriet

Finland 2025

**The world's most attractive and
agile space business environment
which benefits all companies
operating here**

Strategy Working Group's for measures and goals

Measures

The Ministry of Economic Affairs and Employment updates the tasks and composition of the Finnish Space Committee and enhances its activities.

In addition, the ministries foster the establishment of a centralised space administration.

Goals 2025

The central operations of the space administration have been put together by 2020.

The effectiveness and impacts of centralisation is assessed in 2023.

(Proposal for) the new Finnish Space Administration

"Space Office" at MEAE

Space Committee (chaired by MEAE)

Funding
