

**Theme: Advancing Optometry and Optics through technology and shared care.**

**SATURDAY 11th**

	Main plenary room: Europeae	Parallel room: Nautica	Press room
09:00-9:30	<b>MYOPIA</b> 30 min lecture: Unanswered questions in Myopia management. Giancarlo Montani (OP5)	<b>Rapid Fire Session (4x10 minutes): REFRACTION &amp; VISION</b>  - Validation study of the Vision-S™ 700: Comparing smart and standard refraction methods to gold standard. Yaiza Garcia-Sanchez (RF12) - Age-related normal limits for visual acuity and contrast sensitivity in photopic and mesopic lighting: Occupational and clinical applications. Arjan Keuken (RF13) - Rehabilitation of visual functions in people with visual impairment. Pavel Benes (RF14) - A novel test for visual cognition in school children. Christine Nearchou (RF15)	<b>ECOO Meeting</b>
9:30-10:00	30 min lecture: Shedding light into the mechanisms of myopia management with visual electrophysiology research. José M. Gonzalez-Mejome (OP6)		
10:00-10:30	<b>PATHOLOGY</b> 30 min lecture: Alzheimer's disease, dementia and the eye. Svatopluk Synek (OP7)		
10:30-11:00	30 min lecture: Geographic atrophy in Europe - detection & treatment options. Lorcan Butler (OP8)	<b>HOYA Sponsored Satellite Lecture</b> Confidence through Evidence - MIYOSMART in daily practice. Pascal Blaser	
11:00-11:30	<b>Coffee Break, Posters and Exhibition</b>		
11:30-12:00	<b>CONTACT LENS &amp; DRY EYE</b> 30 min lecture: Incorporate a microvault on a scleral lens. Telamitsi Kyriakos (OP9)	<b>EssilorLuxottica Sponsored Satellite Session</b> Latest research evidence on Essilor® Stellest® lenses. Olga Prenat and Gabi Steenbekkers	<b>ECOO Meeting</b>
12:00-12:30	30 min lecture: Crossover trial of a new one-day disposable multifocal contact lens: preliminary report. Bruce Evans (OP10)		
12:30-13:00	30 min lecture: Science to the practice, guidelines for dry eye in the Netherlands. Mirjam van Tilborg (OP11)		
13:00-13:30	<b>Lunch, Posters and Exhibition</b>		
	Main plenary room: Europeae	Parallel room: Nautica	Press Room
14:00-14:30	<b>REFRACTION</b> 30 min lecture: Advancing clinical refraction: Assessing the efficacy of smart automated refraction programs. Paul Joret (OP12)	<b>EAOO Assembly General Meeting</b>	<b>No paralell activities</b>
14:30-15:00	30 min lecture: Algorithm-assisted refraction with different platforms in the regular optometric and specialty contact lens clinical setting: advantages, limitations and opportunities. José M. Gonzales-Mejome (OP13)		
15:00-15:30	<b>Keynote Lecture II</b> Ensuring we as primary eyecare providers are part of the action to address preventable visual impairment: WCO's role! Dr. Sandra Block	<b>No parallel activities</b>	<b>No paralell activities</b>
16:00-16:30	<b>Coffee Break, Posters and Exhibition</b>		
16:30-17:00	30 min lecture: Short-wave visible light protection in ophthalmic devices: platforms, characteristics and efficacy. José Manuel Gonzalez-Mejome (OP14)	<b>Rapid Fire Session (4x10 minutes): BINOCULAR VISION</b>  - Prevalence of accommodative and binocular vision anomalies in UK primary school children and their association with reading ability. Brendan Barrett (RF16) - Comparison of cycloplegia at 10-, 20- and 30-minutes following proxymetacaine and cyclopentolate instillation in white 6-7-year-olds. Megan Doyle (RF17) - Diplopia: Role of optometrist after ocular surgeries. Andrea Rapino (RF18) - Hyperopia and school performance in schoolchildren in Ireland. Siofra Harrington (RF19)	<b>Special Interest Group EDUCATION</b>
17:00-17:30	<b>Symposium / Round Table</b> What role can we play in myopia awareness		
17:30-18:00			
18:00-18:30			
18:30-19:00			
19:00-19:30			
19:30-20:00			
20:00-20:30	<b>EAOO Dinner</b>		
20:30-22:30	<b>EAOO Dinner</b>		

FELLOWSHIP INTERVIEWS
